Mini Sprinklers Vee-Jet Series

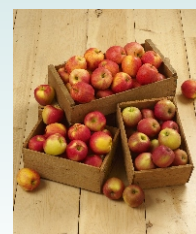

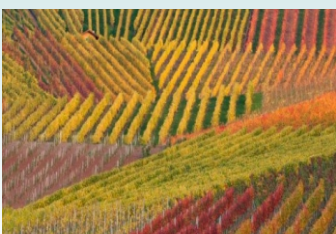

Vee-Jet mini sprinklers are affordable low volume spindle type sprinklers designed with simplicity in mind without compromising on operational versatility.

Manufactured from tried and tested engineering polymers using up to date precision injection moulding machinery in accordance with the highest possible quality standards making the product both durable and reliable.

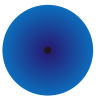

Well suited for irrigating narrow wetted strips in various row crops such as vineyards and fruit trees.

Features

- Colour coded bodies for ease of product identification in orchards, vineyards or any other narrow row crops
- A choice of 3 different nozzles with flow rates from as low as 23 litres per hour and up to 124 litres per hour
- Short wetting radius achieved due to vibrating spindle mechanism, no need for unnecessary large swivels
- Optimal droplet distribution from 1,2 metres up to 2.5 metres radius in upright configuration
- Made of durable ultra violet stabilised materials, providing years of reliable service, as are the accessories
- Not affected by insects causing blockages or stoppages, self cleaning due to vibrating spindle through orifice

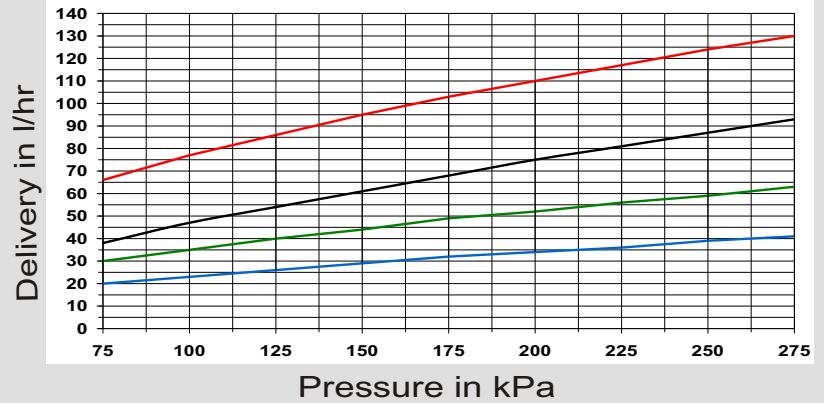

Performance Table

DISTRIBUTION PATTERN →			
BODY & HEAD COLOUR	OPERATING PRESSURE IN kPa	FLOW RATE IN L/Hr	WETTED RADIUS IN M
ORIFICE SIZE IN mm	Measured under the nozzle		
LIGHT BLUE/BLACK  1.41mm	100	23	1.20
	150	29	1.40
	200	34	1.60
	250	39	1.60
GREEN/BLACK  1.50mm	100	35	1.40
	150	44	1.60
	200	52	1.60
	250	59	1.70
BLACK/BLACK  1.73mm	100	47	1.60
	150	61	2.00
	200	75	2.00
	250	87	2.10
RED/BLACK  1.92mm	100	77	1.60
	150	95	2.00
	200	110	2.40
	250	124	2.50
